

EXPAND Your Business Horizons...

SiteCrafting Can Build Your Website and Much More

Website Management

Interested in managing your website content without learning a lot of computer code? Easy-to-use content management systems are our specialty. Add and change images, text, and pages, store documents and images, and create and update users to give different employees specific permission to make changes. The possibilities are practically limitless.

E-Commerce

Selling products and taking payment for services via the internet is nearly a business necessity today. If you're ready to update or build a site that appeals to internet-savvy consumers, SiteCrafting makes it easy. From online catalogues to ticketing applications, or just a simple shopping cart, we build it all. Your E-Commerce solution will do exactly what you want it to do, and it will be scalable to grow as your business grows.

Wireless Solutions

Is your business on the move? SiteCrafting can develop systems that move with you. Custom applications integrate and communicate with mobile devices – like laptops and hand-help devices – to help you keep on track while on a job site or traveling. Plus, custom tools can interface with your essential in-office software products (accounting, etc.) Giving you total access to your business from anywhere you go.

Business Communications

Every business could use a little help keeping staff on the same page. That's why we build custom business management tools to unite all

pieces of the communication puzzle. Get automatic email notification upon completion of an action, alerts posted and emailed when tasks fall behind schedule, a database of contact information, and flexible searching and reporting. Keeping it all on the web makes it seamless and simple to prepare for meetings or to access information while on the phone.

Learning Management

Learning and growing as a company are important aspects of any business. If you need help managing your team's learning opportunities, we've got the solution for you. Including online employee reviews, interactive tests/quizzes, and even payment for courses where applicable.

Event Scheduling

Managing schedules can be hectic. But keeping track of everything online keeps it manageable. Calendars are accessible from anywhere, and can be changed from anywhere as well. Schedule and share company events and training, handle registration, even meeting room scheduling. And the web makes it accessible to all your team members from wherever they're working.

Much, much more...

SiteCrafting has a lot more tricks up its sleeve. Our developers are constantly working on the next generation of web applications. So if you haven't seen what you're looking for yet, just ask us. We've developed hundreds of custom web applications, and will be happy to develop exactly what you need.
